

do this - a) without laughing - b) did the other people quickly also stick their finger up their ass to also feel safer? c) if any people try to attack you for not being OK in the head - tell them very calmly - "You don't question the so called holocaust, how dare you question those sneaky CORONA snakes."

Tip: you may want to get the BBC with their film crew to document this event, it will increase their viewer ratings - guaranteed, -

Things are all moving as planned Milton, the receptivity to Facts is now greatly sensitised and people who do not want to be the very last in the new normal, are listening very attently. These processes are all exponential and irreversable. Like a volcanic eruption.

I am getting fresh air and exercise during my garden work here, and I like my work. People are all coming around, it is painful to meet anyone who "doesn't get it." Thankfully that is no longer happening. I have 3 (three) words for those types 1) infantile 2) lobotomized 3) Eunuchs, or Castrates, Kastraten in German.

I cannot respect an ~~a~~ infantile lobotomized Eunuch, I want nothing to do with such a depravity. Like having a child rapist as a friend. It is near end of 2023 now and we have all had an equal amount of time to pull our head out of our ass. On that note - paper end,  
Best Regards, WC88 wontCaseAlfrat.
